WING TWP. NEAR BRAINERD,
HARDEST HIT

Yesterday's conflagrations and forest fires took toll of one life, Michael Buchite, of Emily, who dropped dead from heart failure, following exhaustion while fighting the forest fire west of Emily.

The forest fires surrounding Brainerd which covered an area of between 15,000 to 20,000 acres of land also did damage to Minnesota's forests of thousands of dollars, and the lowering to the ground of one school house, three barns, one house and 100 tons of hay at Maple Grove township in Cass county, and one two-story house, a barn and two granaries in Crow Wing township.

Danger was felt for the cottages at Gull lake where a huge fire raged but the fire fighters through their valiant service, were able to prevent any damage to the cottages.

Twelve fires raged in eight different townships of three counties, Crow Wing, Morrison and Cass, the fires being located at the following places, Crow Wing county, section 28, Crow Wing township; sections 1 and 12, Sibley township; section 13, Crow Wing township; Morrison county: sections 14 and 23, Prairie township; section 35, Clough township; Cass county: section 18, Home Brook township; section 27, Maple township; Byron township; sections 23, 26, 35 in an unorganized township.

Fire in Crow Wing township resulted in the burning of a two-story house, a barn and contents, and a granary owned by John Vanasse; hay and straw pile owned by Ed Girard; hay owned by Tom Caron; stack of hay owned by Wilber Gildart; two hay stacks and a straw stack owned by Louis Bourassa; barn and granary owned by William Caron.

A hard fight saved the two-story house, barn and sheds owned by Peter Dechaine while fire fighters were successful in saving the hay of George Eschenbacher.

Today the fires are under control. E. H. Rhodes, forest ranger, stated, but yesterday fire left in its wake destruction and one death.

In all over 300 to 400 fire fighters were out fighting the flaming demon as it roared its way through forests, fields of grass, jumping roads, sweeping everything before it. The strong wind helped it along and worry was felt that the fires might get beyond control and make a clean sweep.

Reports of fires and requests for assistance kept State Forest Ranger E. H. Rhodes busy at his office in the court house all day, directing the different crews.

Endless numbers of telephone messages were received by him from the different deputies as to their progress in combating the fires.

Brainerd contributed to the fire fighting cause 75 recruits who were sent out from here to the different fires. Chief Roy N. Zierke of the city police department, and Officer Abrahamson rendered valuable aid in gathering up the men.

The following deputies were in charge of the fire fighting forces: Crow Wing township, Ted Nesheim, Henry Stein; Gull Lake, Verne McClaren, Elmer Lee; Sibley township, Harry Cochran; Maple Grove township, N. D. Anderson, M. A. Rhodes; Byron township, C. C. Carlton; Prairie township, Frank Prosser; Clough township, Clarence Tucker.

The closest fire to Brainerd was the one on South 13th street, about six miles south of here.

Detailed reports from deputies are expected late today or tomorrow when the extent of damage can be learned.

At 11 A. M. Today

Two new fires running yesterday and first reported this morning were east of Mildred in Cass county, and south of Hillman on the Soo line. This station is east of Little Falls.

The wind has moderated and is now blowing from the northwest. Fires had such a large frontage, running from one to two and six to eight sections, that it is difficult to keep posted on their general run. The Gull Lake fire is out, also the one in section 13, township 134, range 23 of this county.

The losses throughout the three counties fire area include cordwood, fencing, hay, straw, etc., on various farms. These fires are not necessarily all forest fires. Grass catching

Drys Before Senate Prohibition Committee Today

CONSIDER PACT WITH BRITAIN ON LIQUOR FLOW

Washington, April 16.—(UP)—A proposal for a treaty with Great Britain to stop all importation of liquor from the British Dominions to the United States is being considered by the United States government.

Following a conference between President Coolidge and Secretary of the Treasury Mellon today it was learned that several high government officials of the prohibition enforcement organization may be sent to London early this summer to propose an agreement to stop the flow of liquor into the United States.

2 MEN TO THE GALLOWS FOR BRUTAL MURDERS

RAYMOND COSTELLO TO HANG
FOR MURDERING MADELINE
WHITE

CHARLES HOBBS, NEGRO, KILLED
HIS LANDLADY FOR 75
CENTS

Chicago, April 16.—(UP)—Two men will go to the gallows here today to pay for the brutal murders of which they were convicted.

Raymond Costello, dapper young ex-convict, must hang for murdering Madeline White, following an attack he made upon her. Charles Hobbs, a negro, must die for killing his landlady, after stealing 75 cents from her.

Costello's repeated moves for appeals from the hanging sentence have been of no avail and last night he was taken to the death house of the Cook county jail. His family visited him there but he was able to talk to them for only a few minutes as he collapsed in the midst of the visit and was carried back to the death chamber.

The young gangster contends he is being hanged on a "bum rap."

Chicago, April 16.—Two men were hanged here today, a punishment meted out for the murders of which they were convicted.

Raymond Costello, convicted of attacking and strangling pretty Madeline White to death, and Charles Hobbs, negro, convicted of killing his landlady, were the victims.

Traps on the two were sprung at 9:20 A. M. Costello was pronounced dead in three minutes and Hobbs in 11 minutes.

Edwardsville, Ill., April 16.—Emil Fricker, a once wealthy farmer, went to his death on the gallows here at 9:11 A. M. today. Fricker was hanged for the murder of John Nungesser and Robert Kehrl, husband of a dairy maid, whom Fricker loved with a passionate jealousy.

GOVERNMENT CHARGED WJAZ
WITH USURPING ANOTHER
WAVE LENGTH

Chicago, April 16.—(UP)—Freedom of the air won a victory in the federal courts here today when Judge James H. Wilkerson ruled that the Zenith Radio Corporation, operating station WJAZ, was not guilty of interfering with other stations in using wave lengths not assigned to WJAZ.

The government had brought suit against the Zenith Corporation on a charge that it had usurped the wave length of five Canadian stations at hours not assigned to WJAZ. Officials of the Zenith Corporation had contested the suit, claiming that freedom of the air was at stake.

After careful study of the case, Judge Wilkerson decided WJAZ had not violated any law and had not interfered with other stations.

KU KLUX KLAN TO OFFICIALLY MOURN ITS DEAD

VICTIMS OF LAST BITTER WAR-
FARE AT HERRIN,
ILLINOIS

6 MEN KILLED TUESDAY, TRIPLE
FUNERAL SERVICE TO
BE HELD

Herrin, Ill., April 16.—(UP)—The Ku Klux Klan today will officially mourn its dead, victims of the last bitter warfare which resulted in six men being killed Tuesday.

There will be a triple funeral service at the Christian church this afternoon for Mack Sizemore, Ben Sizemore and Harland Ford, three Klansmen who were shot down in front of the Masonic building on election day.

The Rev. J. E. Story, long looked upon as one of the principal Klan pastors, will pronounce the services.

While there have been no elaborate services such as accompanied the funeral of S. Glenn Young, when thousands of Klansmen gathered here, the Williamson county Klan is expected to be out in full force to pay tribute to the three victims of the latest outbreak of the late war. Funeral services will be at 2 P. M.

Services for the three anti-Klansmen, A. E. Treadwell, Carol Weaver and Charles Briggs, are to be held separately with none but their families and close friends in attendance.

The neutral element of the city today was speculating whether another measure of peace might be brought forward since the last episode of the war-rant county.

John Smith, outstanding Klansman and whose garage has twice been the scene of battle, today was making plans, at least temporary, for leaving the city. After announcing he desired a return of peace and that he had been ruined through the bitter warfare, as his garage was wrecked by the anti-Klan bullets sent through doors and windows on Tuesday, Smith sold out. Belief was that if he departed, another move toward peace would be made.

The formal inquest into Tuesday's killings will start today, a jury having been sworn in late Wednesday.

St. Paul, April 16.—(UP)—Some time tomorrow Miss Rose Zweriski will know whether her former gentleman friend has a right to possession of her false teeth.

During an argument St. Patrick's day Rose dropped her teeth and Bartholomew Nathaniel Xonoydas picked them up. He refused to return them claiming that he paid for them. Rose sued for them and Justice John Doyle will decide the case tomorrow. Xonoydas claims he also gave her a diamond ring which he wants back.

MAY LOSE FALSE TEETH GIVEN BY GENTLEMAN FRIEND

St. Paul, April 16.—(UP)—Some time tomorrow Miss Rose Zweriski will know whether her former gentleman friend has a right to possession of her false teeth.

During an argument St. Patrick's day Rose dropped her teeth and Bartholomew Nathaniel Xonoydas picked them up. He refused to return them claiming that he paid for them. Rose sued for them and Justice John Doyle will decide the case tomorrow. Xonoydas claims he also gave her a diamond ring which he wants back.

St. Paul, April 16.—(UP)—A jury cannot absolve a motorbus driver of responsibility for an accident and then hold the company negligent, the supreme court decided today.

Judge Arthur E. Giddings, Wright county, was affirmed in his decision and a new trial ordered in the case of Nellie Begin and Theodore Begin against the Lederbach Bus Company, J. Bergeron, driver, and the Minneapolis Street Railway Company.

Mrs. Begin sued as a result of injuries sustained when a street car and motorbus collided in Minneapolis. A jury awarded her \$8,500, dividing the damages between the bus company and the transit company. Judge Giddings vacated the judgment holding that the driver of the bus could not be absolved and his employer held liable.

St. Paul, April 16.—(UP)—Brush and grass fires in the northwest diminished today.

Threat of further damage was removed as the wind diminished and volunteer fire fighters gained control. A survey of the Dakotas and Minnesota before noon revealed no serious damage.

Forestry offices here and at Duluth said there were no forest fires and that brush and grass fires were largely under control. Officials warned that settlers setting brush fires without permits would be prosecuted.

Several farm buildings and one school building burned near Brainerd where brush fires seemed most serious.

While fires have been numerous and widely scattered, foresters said the situation was not serious.

Hazelton, N. D., April 16.—Several farm buildings and a consolidated school were burned in the north half of Emmons county Thursday during the most serious prairie fire in 30 years. The fire swept an area 20 miles long and 10 miles wide.

S. Lobanen, carpenter at Brad dock, was probably fatally burned in fighting the flames near here. His

Attorney General Katzenbach has prepared an opinion as to the governor's power to act and the latter is expected to announce his decision today.

JOHNNY SMALL ACCEPTS \$750 IN \$50,000 SUIT

Chicago, April 16.—(UP)—Johnny Small, who used to be Red Grange's neighbor in Wheaton, and who said that Red promised him the manager's job and then gave it to C. C. Pyle, has received \$750 for his trouble. Small brought suit for \$50,000 but yesterday the suit was settled for \$750.

Grand Forks, N. D., April 16.—Dr. Archie McConnel, Minot, N. D., was unanimously elected governor of the ninth Rotary club district at its meeting here yesterday.

Nine hundred delegates are attending the convention.

Dr. Thomas Kane, president of the University of North Dakota, delivered the opening address. He recounted the enormous growth of the organization which now has more than 118,000 members and 300 clubs in 35 different nations.

Two hundred delegates will take a special train Saturday to Winnipeg. St. Cloud, Minn., is seeking the next conference.

FOREST, GRASS FIRES RAGE IN THREE STATES

COMMUNITIES IN MINNESOTA,
NORTH AND SOUTH DAKOTA
BATTLE FLAMES

1,000 VOLUNTEER FIRE FIGHT-
ERS OUT BATTLING TO
SAVE HOMES

St. Paul, April 16.—(UP)—Forest and grass fires starting simultaneously in Minnesota and North and South Dakota and fanned to alarming proportions by a strong April wind, were battled today by more than 1,000 volunteer fire fighters.

Panicky farmers in affected areas worked desperately yesterday and on through the night to save their buildings. Some were under control at nightfall but others spread through the night despite the efforts of hastily summoned volunteers.

In Emily township, near Brainerd, Minn., Mike Buchite, a farmer, died of heart failure from strenuous efforts to stop the largest fire near his home. S. A. Kindacker, Brad dock, N. D., is in a hospital at Bismarck suffering serious burns, and Robert Twaddle, 56, is in a Duluth hospital also in a serious condition.

There are 20 known fires in the three northwest states. Some are dangerously near villages and towns but as yet have not made inroads on the settlements. One of the worst blazes was reported today within five miles of Pierre, capital of South Dakota.

In some localities farm buildings have fallen prey to the onswelling flames. Livestock perished before rescue from buildings was possible on some of the victimized farms. It is impossible yet to estimate the total damage.

Grass lands and forests are in dry condition due to the unusually light rainfall this spring. Added to this yesterday was the 40 mile wind that swept the northwest. Today the wind had subsided but a clear sky gave no promise of rain.

Ten fires were reported in northern Minnesota centering around Brainerd. E. G. Rhodes, state forest ranger, estimated they covered 15,000 to 20,000 acres. Grass fires near Two Harbors and Duluth also assumed alarming proportions. Calls for additional volunteers were issued by the forester's office.

One hundred men were fighting three fires in North Dakota, centering around Bismarck. One consuming a school house near Menoken. Another blaze swept before the wind through Missouri river bottoms, near Mandan, N. D. A prairie fire near Fargo was reported under control after an all night fight.

The American Legion post at Pierre and the city fire department fought a spectacular fire on Farm Island, a 1,000 acre tract in the Missouri river. The blaze was stopped when it jumped to the mainland. Two ranch houses and a school building were saved by backfires a few miles from Caputa, S. D.

The flames started yesterday without warning, finding real fuel in the dry forests. Fires are considered less dangerous in spring, when rains are frequent, than in the fall when dry leaves cover the ground.

LYRIADS TO ILLUMINATE THE SKIES TONIGHT

Chicago, April 16.—(UP)—The periodic swarm of meteors known as the Lyriads will begin their annual illumination of the sky tonight. The phenomenon occurs each year between April 16 and 22 with the greatest amount of light on April 21.

The Lyriads received their name from the fact that they appear to radiate from the direction of the constellation of Lyra, which contains the brilliant star Vega.

The best view of them may be obtained by watching the northeastern sky in the evening hours.

WISCONSIN TO ERADICATE T. B. IN CATTLE

TO BE CARRIED OUT TO THE

DAIRYMEN

LEGISLATURE PROVIDES \$450,000 EMERGENCY APPROPRIATION

By CLARENCE ENGELBRETH
(United Press Staff Correspondent)

Madison, Wis., April 16.—Assurance that Wisconsin's program for the eradication of bovine tuberculosis will be carried out to the letter is given Badger dairy farmers today following the passage last night by the 13th special session of the legislature of Bill 1-0, providing an emergency appropriation of \$450,000 to the state department of agriculture.

Expected opposition to the measure for which John J. Blaine called a special session of the legislature, failed to materialize and as a result Blaine progressives are claiming a sweeping political victory for him.

After the bill had been passed by the two houses of the legislature and signed by the governor, the latter informed a joint committee that he had no more business to place before the legislature, when sine die adjournment was taken.

There was some delay in acting upon sine die adjournment and the motion was made to adjourn to this morning, when sine die adjournment was to be taken.

The majority of legislators, however, left Madison last night or early today.

Clifford W. Barnes, president of the Chicago Church Federation, presented a resolution adopted by the executive committee of his organization, which stated "that through the careful investigation of scientists and social workers as well as the sad experience of multitudes of individuals there has gradually developed a conviction among the vast majority of our American citizens that the use of alcoholic stimulants as a beverage is detrimental to the welfare of the nation."

"It is resolved that the federation, representing denominations of 750 churches in Chicago, does hereby give renewed expression of its firm belief in the wisdom of the 18th amendment and the Volstead act, its determination to assist in every way possible in giving loyal support to these measures, its hearty condemnation of whatever tends to weaken their effectiveness."

The resolution pleaded that the present law be strengthened and enforcement encouraged.

Telegrams from Canadian clergy containing charges that liquor traffic in Canada has wrought great evils were read. Lee W. Beatty, superintendent Madison Square Garden settlement, said the east side of New York has changed since prohibition and that from 28th street to 49th street in his district there is not a single speak-easy existing today.

Washington, April 16.—A battery of dry witnesses claimed success for prohibition before the senate investigating committee today.

In the name of the Federal Council of Churches, Dr. W. E. Haven, New York, testified that churchmen generally favored prohibition, that it had wrought social and economic blessings and that wets were acting for brewers in seeking its modification.

Dr. H. W. Emerson, former health commissioner, New York, declared prohibition has aided health in the largest city of the country and that there were fewer deaths from alcoholism in 1921, "when liquor was not readily accessible," than now.

Mrs. Helen H. Green, member of the Cleveland city council, said the dry law had reduced drunkenness, aided morality, encouraged children

DR. PARKES CADMAN SAYS MODIFICATION WILL BRING
BACK SALOON

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, April 16.—Liquor traffic before prohibition was allied with political corruption, crime, gambling and prostitution, and for that reason 45,000,000 church members want it kept extinct, Dr. W. E. Haven, representative of the Federal Council of Churches, told the senate prohibition committee today.

Haven presented the report of the council's administrative committee, which said:

"The social perils of alcoholism are becoming of growing concern to the statesmen of the world. If serious evils have sprung up since prohibition they are far less than the evils which arose from the liquor traffic prior to the amendment."

"It meant the wreckage of men and the degradation of families. It produced needless inefficiency in industry."

"Methods of control short of prohibition such as taxation, regulation and the governmentally controlled systems of some of the Canadian provinces and Norway and Sweden all have proved inadequate."

"The call of the hour is for such thorough going work of moral persuasion and legal enforcement as will give the policy of prohibition an adequate opportunity to demonstrate its full value to the nation and to the world."

Dr. S. Parkes Cadman, New York, president of the council, notified the committee that the churches are "more convinced than ever before of the value of prohibition."

"Modification would inevitably bring back the saloon," Cadman said.

MAGNUS JOHNSON TAKES A FLING AT GOV. CHRISTIANSON

FILES FOR FARMER-LABOR NOMINATION FOR GOVERNOR

INDORSED FOR GOVERNOR AT RECENT CONVENTION OF PARTY

St. Paul, April 16.—(UP)—Magnus Johnson, former United States senator, took a fling at Governor Theodore Christianson and the state government today in filing for the farmer-labor nomination for governor.

He was indorsed for governor at a recent convention of the Farmer-Labor association. Tom Davis was put into the race against him by the Non-partisan league.

"I was drafted by the farmer-labor people to make the race," Johnson said in a statement. "My fundamental principle, if nominated and elected, will be to protect the masses and at the same time not impede legitimate business."

"Economy, efficiency and constructive progress are still proper slogans for a party having a future in view. Economy, however, should not be made to cripple our institutions, or to do an injustice to the state's workers."

"As for efficiency there is always danger of making it rest on autocracy. Men holding office by appointment should not exercise powers superior to and over those elected by the people. Moreover, government should function as the servant and not as the boss of the people."

Johnson said he referred above to the "autocratic" form of state government but through the last legislature, by which the governor and three commissioners control expenditures.

ST. CLOUD GETS ROTARY MEET

HER DELEGATES TAKE LEADING PART IN THE PARADE

Grand Forks, N. D., April 16.—(UP)—St. Cloud gets the next ninth district Rotary convention.

The Granite City was chosen today and her delegates took a prominent part in the big Rotary parade this afternoon, advertising the advantages of the next meeting place.

Tom J. Davis, Butte, Mont., candidate for president at the International Rotary convention in Denver next June, addressed the convention today. He emphasized the Rotary ideal of making all communities safe for growing boys and girls.

Belief in Mesmerism Once Was Widespread

Ever since prehistoric days there have been medical quacks. One of the strangest was Anton Mesmer. In Paris he found prodigious vogue, especially among women. To enter his house was an impressive experience. He had assistants who were claimed to be able to transfer magnetism from their finger tips to patients. If a female patient were in a hysterical state, Mesmer himself, in his robe of silk embroidered with gold, and with his ivory wand, would stroke her eyebrows or her spine and calm her. The queen of France commended Mesmerism and a pension of 20,000 francs was offered Mesmer if he could prove that he had made any discovery in medicine and would communicate it to the king's physicians.

Mesmer objected to the latter part of the offer and left Paris. Two royal commissions were then appointed, on one of which Benjamin Franklin was a member. After five months of experiment a report unfavorable to Mesmer was returned, after which Mesmer retired to the country, with a fortune amounting to 340,000 francs. He died in 1815, at the age of eighty-one. —Dearborn Independent.

MOTORING LEADS TO MORE IMMORALITY THAN BUGGY RIDING

Kansas City, Mo., April 16.—(UP)—Although motoring is a more prolific cause of immorality than buggy riding was a generation ago, youth's moral tone is on the upgrade, according to Judge Charles F. Hall, St. Paul, director of the children's bureau of the Minnesota state board of control, here, attending a conference of the Child Welfare League of America.

Modern youth certainly has a deeper reverence for real religion although less respect for theological formality than its fathers, Judge Hall believes.

PRES. COOLIDGE RECOVERED FROM A SLIGHT COLD

ALSO SUFFERED AN ATTACK OF INDIGESTION YESTERDAY

SPENT A FEW HOURS IN BED, THEN STROLLED ON THE GROUNDS

Washington, April 16.—(UP)—President Coolidge returned to his desk today entirely recovered from a slight cold and indigestion he suffered yesterday.

The president was at his desk for a few minutes late yesterday, after taking a stroll around the White House lawn.

He spent a few hours in bed, but feeling improved in the early afternoon, he arose and ate a light luncheon.

HEADACHES MAY BE CAUSED BY CONSTIPATION

Kellogg's ALL-BRAN brings quick relief

Constipation takes its toll in suffering and may lead in the end to more than forty diseases. Don't let this thing pile up poisons in your body—deadly poisons! Read Mrs. Hardin's message of cheer:

"I have taken medicine and taken it constantly for constipation, but nothing I ever took regulated my system except Kellogg's ALL-BRAN."

Mrs. LEE HARDIN,
703 N. Beekly Avenue,
Dallas, Texas.

Headaches, sallow skin, blotchy complexion—these are but a few of the symptoms! Drive constipation from your body with Kellogg's ALL-BRAN—100% bran. Two tablespoonfuls eaten daily—with every meal, in chronic cases—are guaranteed to bring permanent relief, or your money is refunded.

Made by Kellogg in Battle Creek, Michigan. Ready to eat. Delicious with milk, fruit or in cooking. Kellogg's ALL-BRAN is sold by all grocers. Served at leading hotels and restaurants.

Peggy Joyce in Town With Fashion Show

The much heralded and much written about Peggy Hopkins Joyce is in town, not in the flesh, but in a moving picture which promises to make her a screen star of the first magnitude. Miss Joyce has a long list of achievements to her credit. For a considerable time, she kept the capitals of Europe in a turmoil over fashion. With simplicity as a keynote, she drove European dowagers insane in comparison. Gaudily bedecked, they did not stand a

chance at European social events when Peggy demurely, but with a queenliness that is only acquired from American freedom of thought, entered the place.

Now it is possible for the movie fans to see this beautiful star, ideally cast in "The Skyrocket," a Marshall Neilan production adapted from the Adela Rogers St. Johns' Cosmopolitan magazine story, which is tonight the current attraction at the New Park theatre.

In the vernacular of the street, her screen debut is nothing short of a "knockout."

Nita Naldi "Cobra" Woman With Rudolph Valentino at Lyceum

"Cobra" is an ideal vehicle for that magnetic star, Rudolph Valentino. It gives him an opportunity to make love, to fight, to suffer and to win the hearts of his admirers on and off the screen. The pic-

ture, produced independently by the star under the Ritz-Carlton banner, opened yesterday at the Lyceum theatre, and shown again tonight.

The picture has a strong ending. Valentino never looked better nor acted with more intensity. Nita Naldi, much slimmer and more allur-

The same finish used on 25 leading automobiles available for Your car

DUOCO, the finish developed by the du Pont Company, has so proved its unusual durability and beauty, that it has been adopted by twenty-five leading car manufacturers. It is the first time that any one product has been adopted by such a large group—covering every price class.

This same Duco is available for refinishing your car—applied by the same du Pont system used in the large factories.

- 1 Fenders, tires, bumpers, etc., are removed; all glass and upholstery protected.
- 2 The old finish is painstakingly removed leaving chemically clean, bare metal.
- 3 A smooth surface (filling dents, scratches, file marks, etc.) is secured with a number of coats of primer, putty glaze, sanding surfacer, etc.
- 4 Several coats of Duco are sprayed on by carefully trained experts.
- 5 The Duco is rubbed smooth—to be finished either dull, satin gloss or polished.

The result is a finish which is waterproof, weatherproof, wearproof—one which will remain attractive indefinitely.

Bring in your car now and we will deliver it to you "good looking as new" in about ten days.

Let us put Duco on your car now!

Mrs. M. D. Butler, mother of the girl was prostrate with grief.

MINNESOTA DELEGATION IN HOUSE SERVE NOTICE

Washington, April 16.—(UP)—Republican members of the Minne-

sota delegation in the house today served notice on Floor Leader Tilson, Connecticut, that they would oppose adjournment of the present session unless definite farm relief was enacted.

Tilson replied he hoped the agriculture committee would act favorably on a measure in a few days and it would be called up in the house late next week.

Those in the delegation from Minnesota included Representatives Knutson, Clague, Furlow, Goodwin, and Andressen, all republicans.

THE BEER SITUATION

EVERY day the paper is filled with some reference to beer; to malt tonics and kindred topics. The wets claim the people want their beer and light wines, that giving them this concession will cut down largely the consumption of "hard" liquor.

The dread thought also arises that people have been kept so long from beer that they may have lost their taste for the beverage. Real beer has a slightly bitter taste and the palate must be educated by constant practice to acquire a taste for the drink.

Some people have switched their taste from beer and light wines to innocuous soft drinks and to eating candy. A change in the prohibition laws, modifications of the same, may bring about an upheaval in the digestive interior arrangements of many Americans.

Consider the state of affairs. If beer and light wines are made legal, where will they be sold? The country is unanimous on this point. We want no more saloons. The saloons, in the old days, in their abuse of the liquor selling privileges, paved the way for the Volstead law and the 18th amendment.

One senator in the wet hearings of the senate, proposes beer and light wines be sold with meals at restaurants and hotels. The Canadians were brought to testify and relate how Canadian law permits government liquor dispensaries. The Canadian dispensary is purely a business proposition. You buy your liquor and walk out. The dispensary is no social center, no alleged "hangout" for people who kill time and sip their drinks.

Should beer and light wines be made legal and their dispensing allowed in hotels and restaurants, it takes no great prognosticator to point to a multiplicity of hotels and restaurants in the near future. People may be compelled to buy a sandwich in order to get a drink.

The big stumbling block in the beer and wine situation, for the wets, is how to dispose of the stuff without upsetting existing business conditions. No man is so concerned with his stomach as to forget to use his head occasionally.

CHEAP AND JOYOUS TO CRITICIZE NEWSPAPERS

MOST Americans agree with the statement of Grove Paterson, editor of the Toledo Blade, to the effect that the modern newspaper is one of mankind's four greatest institutions, the others, of course, being the home, the church and the school.

Like other institutions, newspapers often make mistakes, and the public does not hesitate to tell the editor about these errors. But the magnitude of the task of building the modern newspaper in so short a time will easily account for the mistakes, and they are no more numerous than they would be in other lines of endeavor under similar conditions.

People like to criticize public officials, lawyers, and the general run of folks, but for some reason, they like the best of all to criticize newspapers. The reason may be that the mistakes of the newspaper are always before them, and cannot be denied or buried. At any rate as Mr. Patterson said:

"It is the cheap and joyous custom to criticize newspapers. Nearly all public speakers attack newspapers for the reason that it is the simplest and easiest way to get quick applause. Applause is the breath of life to luncheon speakers."

Yet the newspaper is always in the forefront, defending the community in which it lives, and in promoting all things that are for the community's good. It probably gives more free service and more honest service for less money than any other commercial enterprise. No man would want to live in a city or town without newspapers, and the newspapers themselves are usually an index of the prosperity and progressiveness of the community. —Marshall News-Messenger.

OUR SO-CALLED FOREST FIRES

OUR so-called "forest fires" sometimes occur in sections where there is little timber. The term is a misnomer. The fire in some cases may be a grass fire or a brush fire. Fanned by the wind, it leaps from farm to farm, jumps across a road, and if unchecked, will quickly burn down a house or barn which may be in its path.

To people unacquainted with our section, "forest fires" are pictured as occurring in the big timber. Fire, however, no matter how it originates, will when unchecked devour anything in its path.

We saw the fire in Crow Wing township, south of Brainerd, last night. It had a solid front of a mile and was devouring the dry grass of a meadow. All that checked its spread to second growth timber was an area of plowed land and a providential change in the wind.

We do wish that the expression "forest fire" would be less popular and that occasionally the term "grass fire" or "brush fire" should be used when correctly describing the kind of fire raging.

UPS AND DOWNS OF A CITY

BRAINERD is not the only town that has its ups and downs. Chicago has its lake water diversion case. In Minneapolis the university threatens to remove because of the encroachment of factories. New York is worried about the St. Lawrence canal.

Florida is finding its boom flattening. Akeley had a fire and lost much of its business section. Bemidji lost its productive sawmill. The iron ranges wait on Cleveland to set the price of ore.

Cities are like individuals, or ships on the ocean. Life is not all clear sailing. Storms ahead, faced and breasted, give one a keener relish for a taste of a good harbor.

In times of depression make preparations to build up the town. A town grows or decays according to the public spirit manifest. The destiny of our town is in our hands.

SENATOR MCKELLAR does not like the present Italian government. He claims there is too much Mussolini in it and if the people should sidetrack that premier they may forget about debt settlements incurred under his regime.

CHICAGO'S diversion of Great Lakes water isn't all for a drainage canal. It also serves to give water power to manufacturers.

EGGS are circulating in Armenia as currency. In order to make it last, one must have the hard-boiled kind.

to right living and decreased crime there.

The middle east side of New York was pictured as clean, healthful community of homes by Lee W. Beatty, superintendent of Madison Square settlement, who attributed the change to prohibition. He denied that there were any speak-easies or much home brewing.

A resolution of 750 churches of 17 denominations was presented pleading for tightening of present enforcement.

At the afternoon session Wayne B. Wheeler, counsel of the Anti-Saloon League, filed a statement attacking the legality of all proposals for modification of the Volstead act.

"No non-intoxicating beverages would meet bootleg competition," he said. "Only strict enforcement will do that."

Frank J. Harwood, automobile manufacturer, Appleton, Wis., and moderator of the national council of the Congregational churches, testified employees were better off, more automobiles were being bought and milk is being substituted for beer as the working man's drink.

Two-Piece Dress With Chic Green Felt Hat

This two-piece dress is of flat crepe with a blouse of jade green, embroidered and stitched in silver and black. The skirt is of black, with plaits on the side, and a wide hem of green to match the blouse.

Modes Are More Mature; Away From Flapper Type

Was it only a season or so ago that in any department store one heard the plaint, "Do they make all the styles for young girls?" For a time it did seem as though dress designers and manufacturers had forgotten that girls grow up; and the only resort for the woman of thirty-odd was the private dressmaker or a collection of clothes frankly intended for "stouts."

Every late trend of fashion, however, appears to be away from the purely flapper type of clothes and toward a sophisticated type of dress. Unelaborated, conservative lines, lines that are much easier to wear and really more youthful looking than the narrow little tube dress, appear in the new spring styles. The flare as it is used in the very newest dresses, is modified to make it elastic to suit many types of figures. Plaits are becoming to almost everyone, and plaits are important for spring. A cape will do more to restore youth than all the face-lifting in the world! Capes are used by all the important designers. Yes, this spring the shopper who buys all her clothes in the "Woman's Department," can go blithely on her way, sure in the knowledge that in the women's department of her favorite store she will find every new style and that it will look as though it were made for her!

Many Attractive Things in New Spring Neckwear

Innumerable dainty styles in neckwear are just out. The white things that freshen any suit or frock are particularly attractive, although the organdies and linens in light colors are much liked. The high neck line has created demand for the gumpie, with a collar that closes under the chin or at the back, with a jabot to finish the front. Chemisettes and collars of different styles are made in sheer white, finely tucked, embroidered or lace-trimmed; stiff collars and cuffs of white and colored linens and organdie, untrimmed or simply tucked, are much worn. These are most attractive with the plain frocks and coats in woolen materials. Ascot ties and plain stocks of white goods are worn with the tailored suits.

Print Fabrics Carry Over Into New Season

It is not often that a mode of one year carries over to another. But from every indication the vogue of printed fabrics, which attained such proportions last spring and summer, promises to be even greater this year. There is a difference, however, which applies not alone to the designs, but to the colorings.

In place of the rather grotesque and frequently ugly patterns of last summer, are designs of great subtlety. Many hint at modernistic influences, others are adaptations from flowers and leaves, while from the point of view of originality few are of greater importance than designs which reproduce in soft colorings the patterns of stained-glass windows.

Brimless Felt Hat

There is a distinct trend toward the brimless hat, or one the brim of which is reduced to miniature proportions. These brimless hats are frequently made of two or more shades of felt. The tam-o'-shanters are usually of velvet and mounted on a band of brilliantly colored material of a contrasting shade or a matching band of felt.

Oratorios

Oratorio is the name given to a sacred musical composition, the subject of it being generally taken from the Scriptures. The name, oratorio, is said to be derived from the fact that these musical compositions were first performed in an oratory or private chapel attached to a church. The first oratorio is said to have been produced about 1550, by St. Philip Neri.

Removing Sugar Marks

A damp cloth that has been wrung almost dry will remove the sugar marks from the mahogany table. But put a little furniture polish on the table afterward. You can use a chamomile to polish the walnut furniture, but a regular polish would really be best.

CHEST COLDS

Apply over throat and chest—cover with hot flannel cloth.

SOME OF THE RABBIT TAKEN OUT OF BALL

DECREASE IN EARLY SEASON HOME RUNS

CAN'T LAY DECREASE IN SLUGGING ALL TO FINE PITCHING

ONLY 10 HOME RUNS THIS SEASON, COMPARED WITH 20 IN 2 DAYS LAST YEAR

By HENRY L. FARRELL
(United Press Staff Correspondent)

New York, April 16.—Decrease in the number of early season home runs leads several major league managers and players to believe that some of the rabbit has been taken out of the ball.

They do not believe that the theory of better pitching excuses a reduction of 100 per cent in slugging from a corresponding period last year. In the first two days of last season major league batters scored 20 home runs, 15 in the American league and five in the National, and so far there have been only 10 this year, nine in the National league and one in the American.

Some American league men see themselves vindicated in the figures for the stand they took that a pitcher must not be made, would not be made, more effective by using resin on his hands.

Most of the National league pitchers took advantage of the modification of the freak pitching rule and have been rubbing resin on their hands and yet they have been out hit 9 to 1.

National league men, however, defend the change in the rule on the ground that no conclusion about its merits can be reached without more of a test and that it will take a season to prove the case.

Most of the ball players in the southern training camps said they had observed no change in the ball and it was explained that most of the balls used down south were left overs from last season.

Rabbit Maranville, veteran shortstop, who has been distinguishing himself this season with his brilliant fielding, expressed the opinion that some of the hop had been taken out of the ball.

"You can't tell, though," he said. "No two of them act the same, but they are coming down a little more like the old style ball."

Major league officials never have admitted that the ball was enlivened to suit the craze for slugging started by Babe Ruth. And they deny any knowledge now that the ball has been changed again.

KANSAS RELAYS WITH HUNDREDS OF ENTRIES IN

Lawrence, Kas., April 16.—(UP)—When the crack of the starter's gun tomorrow morning sends into action hundreds of athletes representing all sections of the country in the Kansas relays here, interest will center around three men.

They are Charley Hoff, sensational Norwegian pole vaulter, who will make his first outdoor appearance in this country; Herman Schwarze, Wisconsin, holder of the world's indoor shot putting record, and John Kuck, Kansas state teachers' college, who also throws the shot over 50 feet.

A new set of standards for the pole vault have been purchased to allow Hoff to try to break his outdoor record of 13 feet 11 13-16 inches and the Norwegian is expected to do it.

Schwarze and Kuck will stage a special exhibition in an attempt to break the world's outdoor record in the shot put of 51 feet, established by Ralph Rose in 1909, and inasmuch as both men have continually gone more than 50 feet 6 inches in the indoor games, it would not be surprising to see one of them annex the world's record.

DE PAOLO WINS FEATURE RASIN DAY FRESNO RACE

Fresno, Cal., April 16.—(UP)—Peter De Paolo, last year's national speedway champion, after a spectacular duel with Earl Cooper, won the feature Rasin Day 50 mile race here in 29:04.

De Paolo went into the lead when he nosed out Cooper on the 45th lap. Bennett Hill had set the pace for the first 35 miles but lost the lead when he changed a tire and finished third. Cooper won the 25 mile event in 14:25. DePaolo was third.

Short Family Name

In England there are many three-letter names, but in the churchyard round a ruined Dorset church there are gravestones erected in memory of several members of a family named "It." This name was either changed or the family has died out, for none bear it today.

Watching the Scoreboard

Yesterday's Hero—Cy Williams, veteran Philly outfielder, went in as a pinch hitter, with the bases filled and hit a homer, beating the Braves, 8 to 4.

Vic Keen, former Cub pitcher, let the Pirates down with five scattered hits and shut out the Pirates 2 to 0.

Five errors by the Washington defense helped the Athletics win their first game of the series 9 to 3.

The White Sox knocked Tom Zachary out of the box and beat the Browns 11 to 4.

With Pat Duncan featuring at the bat the Millers continued their winning streak and made it three in a row over Columbus, copping 13 to 5. Duncan, besides getting his daily homer, rapped out three singles, out of five times at bat.

Hill on the mound for the Indians had the Kansas City Blues at his mercy, the Indians winning 5 to 0.

After Casey Stengel had rapped out a double which enabled the Toledo Mudhens to tie the count with the Saints, Lyons, Hen pitcher, let loose a wild pitch, permitting Wera to score the winning run in the ninth, giving St. Paul a 7 to 6 victory.

Milwaukee dropped the second straight game to Louisville, 17 to 3. The Colonels registered 15 hits off four Brewer pitchers.

NEEDS BIG FELLOWS TO BE SUCCESSFUL

By HENRY L. FARRELL
(United Press Sports Editor)

New York, April 16.—Several years ago a popular and capable boxing manager was prospering with a string of little fellows. They weren't champions and they weren't leading contenders but they were good cards and were making good money.

This manager began to neglect his business and surround himself with a lot of bum heavyweights. He spent more time scouting around the country trying to find or build up prospects than he did at his desk getting matches for his breadwinners and gradually they all drifted away from him.

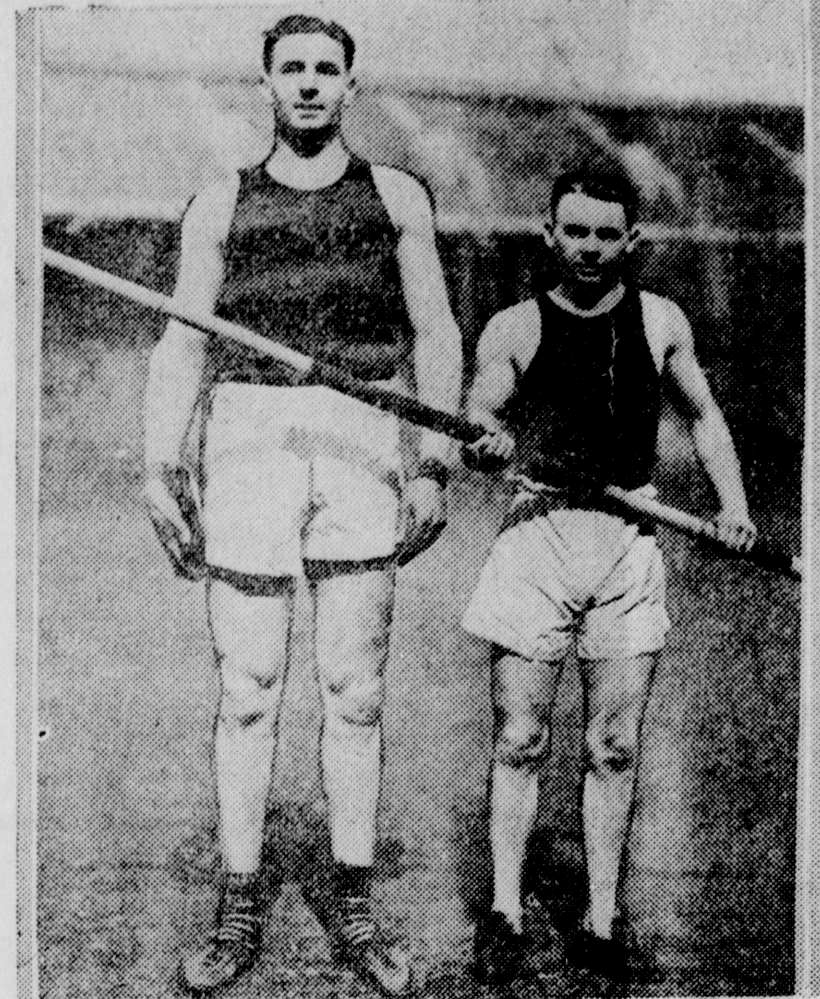

"The big dough is in a new sensation, preferably a heavyweight," he said in explanation. "The fellows in the money now are not champions. The public knows it and the public is tired of them. What I want is a Dempsey to bring out from nowhere and knock 'em all over with a punch. Some place there's an unknown who can lick Dempsey and I want to find him."

He didn't find the unknown and he's broke now. He figures that his logic was sound but his luck poor and some other fellow will succeed where he failed.

There is a lot of good business sense in the theory that the public will respond to an unknown who jumps into the big shots so quickly that everyone asks, "Who is that bird? Where did he come from?" And it is mostly luck in finding a fighter of the type.

Jimmy Johnston once told Jess Willard to get out of his office and that he had no time to bother with a big unknown ham and Willard got out and took with him a million dollars from Johnston's palm.

Roy Slagel of Ohio, the smallest pole vaulter in college, and Bernard Sturz of New York, discus thrower, were photographed at the University of Pennsylvania field in Philadelphia where they and other athletes were training for the Penn relays and field meet.

IOWA STATE IS WELL REPRESENTED

LEADS IN NUMBER OF ENTRIES AT DRAKE RELAY CARNIVAL

Des Moines, Ia., April 16.—(UP)—S. S. Willaman, Iowa State college coach, led in the number of entries for the 17th Annual Drake Relay carnival yesterday, when he sent in a list of 40 eligibles.

Willaman plans to enter a man in every event except the half-mile relay. The cyclone college will compete in the university section.

The University of Illinois entered 30 athletes. Coach Harry Gill's men will compete for honors in all university events except the two-mile relay, the hop, skip and jump and the 100 yard dash.

Purdue University of LaFayette, Ind., will be represented by Cramer in the discus throw and Cunningham in the javelin.

Other schools entering men yesterday were Iowa Wesleyan college, West Union, Penn college, Butler university, Knox, Monmouth and Coe.

NO DOUBT ABOUT IT

Manager (to female applicant for position on the stage)—Have you had any experience?

"No."

"I suppose you were the talk of your town?"

"Oh, no."

"You expect to be a star some day?"

"Oh, no, of course not."

"Can you sing?"

"Very little."

"All right, you're hired. I'll use you as a curiosity."

Drawing the Distinction

"Are you a politician or a statesman?"

"I don't know yet," answered Senator Sorghum. "If I get re-elected and stay in the game, they'll call me a politician. If I get defeated and write essays, the publishers will advertise me as a statesman."—Washington Star.

"\$14.⁹⁸, as advertised"

"How do you spell 'financially'?" asked a college student of his room-mate.

"F-i-n-a-n-c-i-a-l-l-y," said the room-mate, spelling out the word slowly. As an afterthought, he added: "And 'embarrassed' has two r's and two s's."

How often have you said to a salesman, "That's more than I care to pay"? If you had known the price in advance, you would have been spared this little embarrassment. That's one of the great services rendered by newspaper advertising.

By reading the advertisements before going to the stores, you know what you will have to pay for an article. You need not reveal your financial status to a salesman. You perhaps do not like to ask the price of goods anyhow. If the merchant has told you the price in his advertisement, you do not have to ask.

Any way you figure it out, it pays you to read the advertisements. Regularly! The one advertisement you skip may contain just the news you would have welcomed. Read all the advertisements you can. Keep informed.

The intelligent way to shop is to read the advertisements and then go to the stores that offer the best values. Make notes beforehand of the articles that interest you. That's the way to get the most for your money. That's the way to save time.

When you know the price in advance, you can ask to be shown the goods "as advertised"

MARTIN SWANSON IS HONORED

On Job Every Day For 25 Years is
His Proud
Record

GIVEN ROSES AND PURSE

Is Honor Guest at Dinner Given by
High School Faculty And
600 Pupils

On the job every day for the past twenty-five years only losing half a day is the proud record of Martin Swanson, 706 South 9th street, janitor at the Washington high school of Brainerd who on Wednesday was the honored guest of the Washington high school faculty of education and 600 pupils in the assembly hall of the school. Mr. Swanson was presented with a dozen American beauty roses and \$25, one dollar for each year of service, as a token of the appreciation of his services by the faculty and the students. The presentation was made by Miss Mary Tornstrom, principal of the high school.

Mr. Swanson was taken completely by surprise, being unaware that the gathering in the assembly room was in his honor. He was called there after school hours to fix a radiator and upon his arrival he was asked to the platform where he was presented with the gifts. So taken back was Mr. Swanson that all he was able to reply was "thank you everybody." But today he was more composed so he announced that he wished to express his thanks to the faculty and the students for their kindness to him.

That particular half day which Mr. Swanson was away from his duties at the Washington high was when the school basketball team played at Atkin last year, and then the faculty and the students insisted that he make the trip with the team. Mr. Swanson started work at the Washington high school on April 13, 1901 and since that time he has seen two generations of students graduate. He is liked by everybody and the students one day each year do not fail to remember him in some States. He is 63 years old.

Mr. Swanson's record can possibly not be duplicated in the United States.

Visited All Schools and Commented
on Her Inspection
Trip

Over 60 rural teachers and students in the normal training class for the county were in attendance this morning at the opening of the Rural School teachers' conference held in the farmers' room of the court house.

Miss Cora Giere, of the State Department of Education, St. Paul, who has visited all the rural schools in the county is the principal speaker. She gave her comments on her inspection tour of the schools, and helpful advice to the teachers.

FAR EASTERN U.P. CORRESPONDENT BURIED AT CHICAGO

Chicago, April 16.—(UP)—The remains of Bert L. Kuhn, United Press staff correspondent at Shanghai, who died at his post of duty, February 21, were interred in Rosehill cemetery here today, with none but his immediate family taking part in the burial services.

A public service was held when Kuhn's body was cremated in Shanghai and his family decided that the burial should be strictly private. Kuhn's death followed a brief but severe attack of pneumonia. Besides his widow, Kuhn is survived by his mother and a brother, Paul Kuhn, all of whom live in Chicago.

MUSICAL CLUB ANNUAL MEETING

To be Held at the Chamber of Commerce Rooms on Saturday Afternoon at 3 O'clock

TEA SERVED AT SOCIAL HOUR

Check to be Presented Miss Katherine Nelson, Winner in Historical Essay Contest

The annual meeting of the Brainerd Musical club for the reading of reports will be held at the Chamber of Commerce rooms on Saturday afternoon at 3 o'clock. In addition to these, there will be the usual charmingly appointed afternoon tea, excellent music and a social hour. In past years this annual get-together has been well attended and much enjoyed, and members are asked to keep the date in mind, and, if possible, to spend an hour at the meeting on their way to their Saturday shopping.

The club secretary has just received a check from the State Federation of Women's clubs to the amount of \$10 to be presented to Miss Katherine Nelson, a junior in the high school, as the winner of the first prize in the sixth district in an essay contest sponsored by the committee on education of the state organization. The contest was in regard to pioneer days, and Miss Nelson was able to furnish the Minnesota Historical society with some valuable information from the days of her grandfather.

LINCOLN P. T. A.

Program Given, Resolutions Adopted
Favoring Art Instructor
in Schools

The Lincoln Parent-Teachers association met in regular session Tuesday afternoon at 2:30 o'clock. The president, Mrs. Ray Paine presided. Dr. G. I. Badeaux favored with a group of songs accompanied by Mrs. Walter F. Wieland. Miss Florence Nesheim gave a piano solo. The girls of the Sixth grade sang several songs accompanied by Miss Evelyn Fink. Mrs. J. A. Thabes gave a very interesting talk on birds. With a map of North and South America she gave many facts about our migratory birds and their habits. After a short talk she gave those present a test on 50 of our more common birds which opened the eyes of all those present. In the future this group of people will pay more attention to birds. Mrs. Thabes was very enjoyed by all.

A short business session followed. Resolutions were drafted to the school board for an art instructor for the coming year. Lunch was served.

SPECIAL CAMPS FOR BOYS UNDER 12

To be Held at Clearwater Lake by
Scout Executive
Newton

IF PARENTS COOPERATE

Camp Proposed to be Held Last
Week in July or Early in
August

Perry Newton, scout executive here, announced today the holding of a special camp this year for boys under 12 years of age at Camp Clearwater, at Clearwater lake, if there are sufficient number of boys to go out. Mr. Newton would like expressions from the boys' parents as soon as possible so that he can make special arrangements for the opening of the camp.

The camp for all boys in the city under the age of 12 years will be held either the last week in July or the first week in August. The program used will be similar to that used by the Wolf club of the Boy Scouts. If sufficient number of parents show their willingness to allow the boys to attend the camp, a special rate of \$4 a week would be made.

WHEELER ESPOUSES CAUSE OF BROOKHART

Washington, April 16.—(UP)—Asserting that Senator Smith W. Brookhart was ousted from the senate "by the same gang of corruptionists that tried to get me two years ago," Senator B. K. Wheeler, democrat, Montana, is urging that about \$5,000 left from his "defense fund" be spent to help Brookhart vindicate himself in his coming fight with Senator Cummins for the Iowa senate seat.

Wheeler made the proposal at a "civic victory" dinner given to celebrate the defeat of the justice department's efforts to convict him on federal charges of misusing his office. The exonerating of Wheeler was hailed by Senator Shipstead, farmer labor, Minnesota, as "the victory of justice over the department of justice."

COLOR GIRL SENTENCED FOR PEDDLING DOPE

Minneapolis, Minn., April 16.—(UP)—Dotty King, colored, was sentenced to 10 years imprisonment and fined \$5,000 in federal court today for selling illicit narcotics.

KUOMINCHUN TROOPS CHASED BY THE CAVALRY

VICTORIOUS CHANG TSO LIN
HORSEMEN PURSUE
THEM

BATTLE MAY BE FOUGHT SOON
WITH RETIRING
FORCES

By RANDALL GOULD
(United Press Staff Correspondent)

Peking, April 16.—The Kuominchun troops (national people's army) who completed their evacuation of Peking overnight were being pursued today by the Gengtien cavalry of General Chang Tso Lin, victorious war lord. A battle may be fought between the retiring forces and Chang Tso Lin's army at Nankow.

Wu Pei Fu, who declined to combine with the Kuominchun forces so the combined armies might hold the capital, has telegraphed Tsao Kun, former president, who was freed from captivity when the nationalists ousted President Tuan Chi Jui, advising Tsao not to accept the presidency.

Meanwhile President Tuan Chi Jui has left his place of refuge in the legation quarter to which he had retired upon the occupation of the city by the national people's army.

MARKET RALLIES A BIT

New York, April 16.—(UP)—Rallying tendencies which developed in the last hour of Thursday's session, gained further ground today.

In addition to short covering which went ahead in issues that experienced severe breaks on the recent decline, buying of good character was conducted in United States Steel based on hopes entertained in all well informed quarters regarding the possibility of a larger return to the common stockholders this year than the annual rate maintained since October, 1924.

This accumulation brought Steel common to the head of the recovery among the speculative leaders which attained a fair amount of spirit through the morning hours and in the early afternoon.

Before the close, however, short covering spent its force and prices sold off from their highs, due to profit taking by nimble bulls, who had caught Thursday's lows and also to experiment with operations by professionals looking for the top of the rebound.

The market closed irregular.

STATE CONFERENCE OF DEMOCRATS

CALLED FOR MAY 1 BY CHAIRMAN STATE DEMOCRATIC COMMITTEE

Minneapolis, Minn., April 16.—(UP)—A state conference of democrats was called today for May 1 by Julius Thorson, chairman of the state democratic committee.
Representative William A. Oldfield, chairman of the national democratic committee, will be the principal speaker.

Hennepin county democrats will banquet visiting members of the party the evening of the meeting. Notices of the meeting went to all parts of the state.

GREAT NORTHERN IS DENIED NEW TRIAL

IN SUIT INSTITUTED BY DAVID MONTCAIM IN ITASCA COUNTY

St. Paul, Minn., April 16.—The Great Northern railway was denied a new trial today in the suit instituted by David Montcaim in Itasca county court.

Montcaim, as special administrator of the estate of Avila Montcaim, sued for \$7,500 and was awarded \$3,500 as a result of the death of Avila when struck by a Great Northern train at Grand Rapids June 9, 1925. The railway company appealed on the grounds of contributory negligence but was denied a new trial.

M. B. A. CARELESS IN COLLECTIONS

COURT ORDERS FRATERNAL SOCIETY TO PAY \$2,000 CLAIM

St. Paul, April 16.—Because the Modern Brotherhood of America officials in Duluth were careless in requiring payment of insurance premiums when due, the Brotherhood must pay a \$2,000 policy.

Judge Edward Freeman denied a new trial to the Brotherhood and was upheld by the supreme court today. Mary L. Behnke sued for \$2,

000 due on an insurance policy held by her husband. The Brotherhood alleged a premium was unpaid at the time of death. The jury and court found that it was common practice of policy holders to pay at irregular intervals, and held that under this system the policy holder was not delinquent in this instance.

Easy Enough

Dear Sir—I see where some fellow kept awake 100 hours to win a \$200 bet. A certain son of a certain father I know was home two weeks during the holidays, and, so far as I know, he never slept a wink during the entire fortnight. He didn't do it on a bet, either, although it cost me considerably more than \$200.—PA.—Mobile Register.

Good in Solitude

Solitude is the nurse of enthusiasm, and enthusiasm is the true parent of genius. In the ages solitude has been called for—has been flown to.—Disraeli.

A Leading Question

A downtown panhandler has figured out a brand-new approach. He stopped a hurrying man with this question. "Boss, can you give me some information?" "I'll try," was the answer. "What do you want to know?" "What I want to know, boss, is where can I get a quarter?"—Detroit News.

Spot to Be Guarded

Authorities say the Adams apple is the most sensitive spot on the human body. Pressure with both thumbs at this point is almost unendurable, while a sharp blow there will paralyze the power of speech and interfere with breathing and swallowing to a degree that is torture.

Women in Professions

Though the proportion of women in higher professions is still small the number is increasing rapidly. In 1920 there were estimated to be 1,714 women chemists and metallurgists, and 9,048 women physicians, surgeons and dentists.

First Prize Winning Policeman Testifies

"Pete" Jorgensen, Winner Of St. Paul Traffic Officer's Contest In Helping Tourists, Now Tells His Experience With Remarkable Medicine, Karnak, For Benefit of Entire Public.

"Pete" Jorgensen, for twenty-one years a member of the St. Paul police department, and one of the most popular men on the force, now comes forward with his unqualified indorsement of Karnak, the great medicine that is accomplishing such amazing results throughout the Twin Cities. Officer Jorgensen resides at 48 E. Louisa St., and has been stationed on traffic duty at 6th & Roberts Sts. for the past eight years. Almost everyone who passes this corner knows Officer Jorgensen, and last year he had the distinction of winning first prize among Traffic Officers for extending help and courtesy to tourists.

"There's no use talking, this medicine, Karnak just does all they say it will," declares Officer Jorgensen. "Way back last summer I took a course of this medicine and I've

just felt in the pink of condition ever since—I tell you, when Karnak fixes you up you sure stay fixed.

"Well, sir, I started taking Karnak because my stomach had gotten in such condition that it just seemed all 'out of gear,' and what I ate would bloat me up with gas and give me awful headaches. I felt tired and worn out, and just had no pep. My nerves were so on end I couldn't get a restful night's sleep, and I felt the need of something to strengthen my entire system.

"Now, I never heard of a medicine praised like this Karnak, so I started in taking it, and six bottles put me to eating like a farm-hand and just feeling fine all over. Why, it just put me in such tip top condition that I haven't had a trace of stomach trouble since.

"Neither do I have headaches, bloating or biliousness any more, my nerves are steady, and nights I sleep like a top. I gained ten pounds and have just been like a man made over. I've told dozens of people about Karnak already, and am glad to help put everybody else I can on to the medicine."

Karnak is sold in Brainerd by all good drug stores, and by leading druggists in every other town.
